Recent Advancements in Natural Products Chemistry and Nanotechnology (RANPCN-2019)

Scheduled

September 9-10, 2019

Organized by
DEPARTMENT OF CHEMISTRY
UGC-SAP (DRS-II)
HNB Garhwal University
(A Central University)
Srinagar (Garhwal) Uttarakhand-India
Pin- 246174

Invitation

The Department of Chemistry, HNB Garhwal University, Srinagar Garhwal is pleased to invite scientists, chemistry educators, chemists from industries to have deliberation on the themes of the conference focusing on the recent advancements in natural products chemistry and nanotechnology. This conference also aims to discuss the measures to increase the interest of students in chemistry. Invited lectures will be held by eminent scientists and the young researchers/teachers will get an opportunity to contribute in the conference through oral/poster presentation highlighting the usefulness and wonders of chemistry.

About the University

This University was established in 1973 and later on renamed H. N. B. Garhwal University in the memory of late Shri H. N. Bahuguna. It was upgraded to the central university under the Central University Act in January 2009. Today, it is among the ten largest universities of the country having three campuses at Srinagar, BGR Campus Pauri (32 km from Srinagar) and SRT campus Badshahithaul, Tehri (85 km from Srinagar) and affiliated colleges and institutions. Situated in beautiful surroundings of holy Alaknanda, the University at Srinagar is bisected by the river into two campuses, Srinagar and Chauras. The University consists of 12 Schools and 43 departments with the strength of 9,000 students. Several departments in the university, namely Zoology and Biotechnology, History and Archaeology, Political Science, Tourism and Chemistry have been recognized under the SAP program of the UGC. Some departments have also received grants for further developments from DST FIST program, DBT, UGC and other funding agencies. The university is committed to achieve excellence in teaching, research and learning with an aim of achieving high standard in education.

About the Department

The Department of Chemistry offers under-graduate and post graduate courses at Srinagar campus since the inception of the University in 1973. The post graduate course was introduced at Tehri and Pauri campuses in 1996. The Department has a faculty of four professors, and five assistant professors besides eight guest teachers to support the teaching. Presently department was benefited by the UGC (DRS II) facilities. The Department of Chemistry has four main establishments housing its teaching facilities-lecture theatres, under-graduate and post graduate laboratories and instrumentation room. The Department is also maintaining a library for the post-graduate courses and research. One of the major areas of research is natural products chemistry, especially focusing on the isolation and characterization of bioactive compounds and their medicinal applications. Other research areas of interest are synthetic organic chemistry, material chemistry, Nano technology, natural dyes and green chemistry. The Department has established collaborations with premier institutes and Universities at National and International level. The faculties in the Department have also visited abroad for joint collaborative research work and received many national and international fellowships.

Themes:

- ❖ Recent developments in Phytochemistry.
- ❖ Advances in Analytical Techniques.
- ❖ Recent developments in Bio-chemistry.
- ❖ Nano Chemistry, Green Chemistry and Material Science.
- ❖ Pharmaceutical Chemistry and Drug delivery.
- ❖ Chemical Sensors.
- ❖ Heterocyclic Chemistry.
- ❖ Polymer Chemistry.
- ❖ Biotechnology, Microbiology and Life Science.
- ❖ Mathematical and Computational Chemistry.
