## **PRACTICAL-DSE LAB: QUANTUM MECHANICS**

*Use C/C++/Scilab for solving the problems based on Quantum Mechanics and Laboratory based experiments:*

1. Study of Electron spin resonance- determine magnetic field as a function of the resonance frequency
2. Study of Zeeman effect: with external magnetic field; Hyperfine splitting
3. To study the quantum tunnelling effect with solid state device, e.g. tunnelling

current in backward diode or tunnel diode.
